The news from California generally is unimportant, with the exception that several additional executions have taken place by order of the Vigilance Committee. One of the persons executed was the notorious Jim Stuart, an English convict, who was convicted of murder and numerous robberies. The quartz mines are attracting the attention of all classes of the community, and as the numbers daily entering into it are rapidly increasing, there can be no doubt but that the yield of gold dust will be greatly augmented as the year ad-

The miners engaged in washing are doing remarkably well, and there are few localities from which unfavorable accounts are received.

Harvesting has become general throughout the country, and the yield is likely to be very large. Potatoes are beginning to be sent to market; and in some localities the yield is estimated at 10 tons to the acre. This, with the estimate of 1600 to 1800 pounds of barley also to the acre, is at least, proof that a large portion of the country is fertile enough to make it important as an agricultural State.

The news from the north is by no means pleasant. The Indians in the entire vicinity of Rogue's River, and the Kalamath region, have exhibited the utmost hostility against the whites and being armed with guns and pistols, as well as bows and arrows, are a most formidable ad-

In Sacramento City, a most aggravated nighway robbery was committed on the 9th inst., in broad day light. Impatient of the law's delay, the people, by their united expression, induced the Court and the lawyers selected to defend the prisoners, to go into a trial immediately, and at last accounts, one of the party was before the Court on trial.

The effects of the late fire in this city are yet perceptible, but the energy and enterprise of our citizens appears to be unabated, and the burned district, although not entirely rebuilt, is pretty thickly studded with tenements of all descriptions, and brick and stone buildings of a most substantial character are in process of erection

a greater portion of the whaling business belongs to Massachusetts. The whole number of vessels is six hundred and five. New Bedford has two hundred and seventy-five ships and barks, and more than half the tonnage. Nantucket, New London and Fairhaven, have about an equal interest in the business. There are now one hundred and thirty-two large ships and barks in port, fitting for sea, and they will require nearly four thousand men for officers and crews. The total amount of property invested in the whaling business must be between twenty and thirty millions of dollars. The first seven months of the year, there were landed about \$2,800,000 worth of sperm oil, \$4,500,000 worth of whale oil, and \$1,200,000 worth of bone-making a total of \$8,5000,000 for the first 7 months, giving for a yearly \$15,000,000.
